

Core and Coil Data Sheet - Rev B

Synthetic composite core/coil datasheet. Approved project change records may supersede catalog values.

1. Core and geometry

Property	Released value	Legacy/catalog value
Core material	Linear benchmark iron	-
Effective μ_r	1200	1000 in catalog Rev A
Cross-section	25 mm x 25 mm	same
Nominal air gap	1.50 mm	same
As-built prototype gap	1.58 mm	test configuration only

2. Exciting coil

Property	Value
Turns	600
Reference frequency	50 Hz
Current definition	RMS phasor magnitude
Final benchmark current	2.0 A RMS
Polarity	Positive current -> positive mmf

3. Measuring coil

Property	Released value	Old prototype note
Turns	50	40
Location	Air-gap region	same
Induced-voltage orientation	Negative relative to useful flux arrow	not frozen
